$130,000 PROJECT

Plans for VFW Building Told

Veterans of Foreign Wars Post No. 2082 of Lemon Grove revealed plans this week for the construction of a $130,000 building at Imperial and Lincoln.

Jesse Ham, a member of the post's building committee and senior vice commander of the post, said the structure would be built on a 345-foot frontage lot on property owned by the veterans' organization. Additional land in the same area has been leased to the Richfield Oil Co. for a service station, he said.

TWO FLOORS

The building will be 60x140 feet, with two floors. An auditorium is planned on the upstairs level with clubrooms, offices, lounges and meeting rooms downstairs, Ham said. The auditorium will be the largest in Lemon Grove, exclusive of school structures, he said. It will be available as a rental by the public.

When Imperial avenue was widened three years ago the building formerly occupied by the VFW post was razed, Ham said. The post has been meeting at the Lemon Grove Youth Center. He said plans for financing are now under way. "We had a meeting Wednesday of last week with Cactus Builders & Associates," Ham said, "but nothing concrete came out of the meeting. No contracts have been signed."

Urko Kronquist is present post commander of the local VFW. The post, chartered in 1923, now has about 90 members with some 40 members in the ladies auxiliary. Regular meeting nights are the second Tuesday in each month. March 14 is the next meeting date and Ham said plans made thus far on the new building will be outlined to the members at that time.

The post is active in veterans' affairs and in community activities. Members sponsor a Boy Scout troop, decorate the community Christmas tree each year and stage a local March of Dimes campaign.

DAMAGE LIGHT

Torches Set Off 2nd Fire

Fire early Tuesday morning damaged salvaged material from the Kobush Van & Storage building—scene of a $270,000 blaze Jan. 20.

Salvage crews have been working in the wreckage of the building, a Lemon Grove landmark for more than 70 years, since the fire, officials here said. Hot slag from cutting torches used in the salvage operation apparently caused the second fire, they said.

SALVAGE DESTROYED

Some of the material salvaged from the building, which for many years housed the old Lemon Grove Citrus Assn., was destroyed. Firemen said no estimate of the damage has been given, although they listed it as "light". The fire burned a large hole in the floor of the old structure and some of the salvaged material dropped through to the basement.

Burglars Hit High School

A stop watch, a school class pin and a jar containing $135.70 has been recovered by sheriff's officers as investigation of a Saturday morning burglary at Mt. Migquel High School continued this week.

Sheriff's officers said they picked up a youth near the school early Saturday morning. A search of the area resulted in finding the watch, money and pin, they said.

The youth denied any knowledge of the burglary, said he had walked from National City and was on his way to his home in El Cajon.

Three louvres were removed from a transom above one of the doors at the school, the officers said. The entire office section was ransacked and dispensing machines had been broken into.

Melvin Grant, principal of the school, identified the stop watch.

'Teen Age Miss' Will be Named

Lemon Grove's "Teen Age Miss" is being selected by the Lemon Grove Woman's Club Juniors and will be announced at a meeting of the club Tuesday, March 28.

Mary Elizabeth Barrett and Karen Kinney, both 17 years old and students at Mt. Miguel High School, are the two finalists. They were interviewed early this week by members of the club's board.

The winner will receive a $50 scholarship and prizes donated by the merchants of Lemon Grove. She will advance to be judged in competition with other winners in the county during a convention this summer in San Diego.

PANCAKE FESTIVAL — Kiwanis club's fourth annual Lemon Grove Pancake Festival to be held all day Saturday at the Lemon Grove junior high school brought out all the would-be chefs in the club. LG Jaycees Elect Five New Officers

Election of several new officers of the Lemon Grove Junior Chamber of Commerce was held Tuesday at the home of member Kenneth Affleck, 7222 Peter Pan Dr., S.D.

President Biff Barrett announced that Virgil W. Crum of 7211 Peter Pan Dr., S.D. had been elected first vice president in charge of internal affairs, and Kenneth Affleck, second vice president, in charge of external affairs.

Newly elected also, were William R. West, 7221 Peter Pan Dr., S.D., secretary, and Joseph Swart, 7201 Peter Pan Dr., S.D., treasurer. J. C. Lettow, 9012 Davenrich, Spring Valley, was elected to the board of directors.

"The new officers are vitally interested in renewing several continuing Jaycee programs," said President Barrett, "and they represent the most active group within our chapter. The unusual fact that annual elections are normally held in July and not in March means only that we are bringing along our new members rapidly."

Continuing as state director will be Pete Byrne, 7232 Peter Pan Dr., S. D., who is a long-time member of the Lemon Grove Jaycees, and Abe Mukai, 2555 Sweetwater Rd., S.V., a charter member, remains as the final member of the board of directors.

The remaining business of the general meeting was to consider whether to join the forthcoming East San Diego County Fair sponsored by El Cajon Jaycees in May.

A general meeting for new members was scheduled for March 23. Watch this paper for time and place.

Home Ransacked; Nothing Taken

W. Ray Coyle, publisher of three county newspapers, is being mourned this week by those in the newspaper profession. This is not to say that mourning is restricted to this group, but many of us knew him well from frequent contact in our daily chore.

Coyle, who died Saturday after an illness of but two days, had left his mark well on the communities he served. He published newspapers for, and served National City, Chula Vista and Imperial Beach. He was also known statewide for his service as a director of the California Newspaper Publishers Association. He was also president of the San Diego unity of CNPA.

He worked hard, as many newspapers leaders do, outside his own occupation. He was director of the Boys' Club of National City, organizer and first chairman of the South Bay Irrigation District, and later became the latter's representative to the County Water Authority. He was also organizer of the Otay Municipal Water District and organizing chairman of the 80th District Assembly of California.

In addition to operating his three newspapers and taking part in many civic affairs, he found time to serve fraternal and service organizations. He was a member of the Chula Vista Masonic and Elks lodges, S.D. Scottish Rite Bodies, Al Bahr Shrine, C.V. chamber of commerce and Rotary club, and Sigma Delta Chi, national journalism fraternity.

Ray Coyle must have felt that he left much unfinished. But he left his imprint, clear and bold, on the pages of San Diego's journalistic product.

Reduced county income is a self-admitted fact that the county government is facing up to this year.

T. M. Heggland, chief administrative officer, in his annual look-at-the-budget study, warns that county income is slumping and outgo is increasing.

Reduced income is due to decreases in building permits, a slackening off in growth of property taxes due to the construction slow down, lower sales tax due to reduced retail sales total, and less fees of all kinds.

On the other hand tremendous increases are being piled up in hospital and welfare categories.

The keynote for the 1961-62 budget, says Heggland, is austerity, and he calls upon every county department to help hold the line.

There should be no increase in public services as a means of holding the line by which a tax rate increase next year might be averted. A leveling off of charities and correction expeditures would be a determining factor, however.

The expiring budget was $78,299,877 with a tax rate of $2.07 and a per capita cost of $31.26. Of this budget, 47.23 per cent went to charities and corrections.

It is reassuring that the chief administrative officer has called for a tighter operation for the coming fiscal year.

An even more reassuring note would be struck if he would call for a reduction in personnel in the various departments he says are suffering reduced activity and income.

Equally welcome would be a voluntary offer of a reduction in salary from the department heads whose department's personnel and income are reduced - say 15 per cent among those with an income of more than $150 a week.

The latter wouldn't help much moneywise, but it would tell the rest of us that county department heads are with us in the program of austerity.

Assessor's Men on Panel for Coordinating Council Session

The Lemon Grove Coordinating Council has scheduled a meeting for Monday so that local residents may be informed on the coming two-day official visit to Lemon Grove of the county assessor's office.

Dr. Dennis McLaughlin, president of the Coordinating Council said the meeting is being held two weeks early so that interested persons may talk to assessor's office representatives before the March 16-17 period when exemptions may be registered at the Youth Center building on School lane.

Don James, assistant of the business division, and A. R. Bailey, supt. of appraisers, both of the assessor's office, will provide a panel for questions and answers at the meeting.

The meeting starts at 7:30 and closes promptly at 9 p.m.

Dr. McLaughlin also announced the appointment of two local clubwomen to head Lemon Grove's first historical society. Mrs. Schuyler and Mrs. Walter Shimp will gather all local memorabilia available to them. He turned over to the women a nail from San Diego's first schoolhouse. It had previously been presented to the Council by Ben Dixon, historian for the San Diego Historical Society when he appeared here as speaker last month.

SCHEDULED NEXT WEEKEND

Fashions, Prizes and Fun Pledged During LG Event

Fashions and prizes, all of them in profusion and quality, will make up part of the Lemon Grove merchants' association's merchandising promotion to be held here next week.

Fully a dozen firms will participate in an outdoor fashion show to be held in the plaza Saturday, March 18, at 2 p.m. This will be followed by prize drawing during which several hundreds of dollars worth of Easter merchandise will be distributed.

Winners will be ascertained by tickets dropped into a container in each of the local stores. These tickets will be pulled out by George Fickas, co-owner of Lemon Grove Tire, who will be emcee of the awards section of the project.

A three-day merchandising event will attract attention to Lemon Grove Thursday, Friday and Saturday March 16, 17 and 18 and a tabloid section will appear in this newspaper to list local values. A special mailing of the tabloid will also be sponsored by the merchants' group.

SHAMROCKS, TOO

The Easter promotion which will have a combined motif of the Easter bunny and St. Patrick, will extend to practically all lines of merchandise here. Many of the clerks will be wearin' the green. Shamrocks, Irish hats and green sleeve garters will be the rule.

The drawing for valuable prizes will come on Saturday, the third day of the event, at 3 p.m. in the plaza at Broadway and Imperial.

A partial list of the prizes include: a $13 toy from Calders; permanent, Jean's Beauty Shop; a months supply of groceries, Don Diego, and $5 certificate,

Pole-snatcher Sought Here

Sheriff's deputies are diligently seeking a person with seven galvanized poles, nine feet long.

They were taken from playgrounds at Monterey Heights and Palm Avenue schools, according to Paul Reynolds, business manager of the L.G. Elementary school district.

The poles, about two inches in diameter, were used as tether ball poles and they were imbedded in concrete. The pole-snatcher used a hacksaw and considerable energy to get the poles which have a replacement value of about 70 cents a foot.

Tether balls are disconnected from the poles at the end of each school day, Reynolds said.

ACCEPTANCE IN DOUBT

Signatures Checked On Split Lot Issue

SAN DIEGO (CNS)— With no assurance that petitions seeking repeal of the county's new "lot split" ordinance will be accepted by the Board of Supervisors, clerks in the office of the county registrar of voters have begun the task of verifying nearly 35,000 signatures.

The Supervisors referred the petitions to the registrar Tuesday for checking. But it was quickly pointed out that this action did not constitute acceptance by the Supervisors.

"We'll meet that issue when it comes up," remarked Supervisor Robert C. Dent, on whose motion the petitions were referred to the registrar.

"I think that out of fairness to the people who carried the petitions and to the people who signed them, we should have them checked," Dent said. "There has been a lot of interest in this thing."

Charles J. Sexton, registrar of voters, said his office would be hard put to complete the checking in the 10-day period allowed by law because all of the San Diego city registration books now are in the hands of precinct officials for city elections and will not be returned to the registrar before next Wednesday.

Sexton said only the referendum petitions, submitted by the Citizens Assn. for Better Government, will be verified. An additional petition bearing 8,000 signatures and asking the Supervisors to voluntarily rescind the land-division ordinance will not be counted, he said, because it "has no official standing, other than as an expression of opinion."

The association claims that the referendum petitions bear 34,487 signatures of registered voters. The law requires about 29,000, or 10 per cent of the number of votes cast in the 1958 general election.

Polio 'Shoot' Set Wednesday

The San Altos PTA will stage a polio clinic at the school, 1750 Madera St., Wednesday from 6:30 to 8 p.m. Charge for the shots is $1.

Clinics, for those persons taking the series of inoculations, will also be conducted April 19 and Nov. 22. Booster shots will also be given at all three clinics. PTA officials said.

BULLETIN

Lemon Grove Fire Chief H. L. Hensley said today he is seeking to contact the youths who arrived at the Kobusch Warehouse fire in Lemon Grove January 20th just prior to the arrival of the fire equipment. They were said to have been in the vicinity of the warehouse about 7 o'clock on the night of the fire. The fire department responded at 7:17 p.m.

The chief said that these lads could probably supply information that would greatly facilitate the investigation which is still being carried on.

He said that if the young men were to volunteer their help, it would be in the finest order of community and fire department service.

OFF TO CAMP — Youngsters of the sixth grade classes at San Altos Elementary School here—numbering some 70 strong—left for a five-day camping trip Monday of this week, and the REVIEW camera was on hand to record the farewells. The youngsters painted a sign for their bus and here some of the pupils display it for the parents who were on hand to say goodbye. Robert Harvey and Mrs. Maxine Arnold, both teachers at Los Altos, accompanied the young campers. (Staff Photo)

of Spring Valley and used as guide throughout the nation.

No less burdened by the force of the recession than most other communities, Spring Valley residents are meeting their needy family problem head-on, and are doing it nicely.

They started the Spring Valley Welfare in 1948 and develope income from a "thrift shop" on Campo road to provide for the needy. Local citizens contribute unwanted merchandise to the shop and this was converted into cash. Cash is used locally to buy food and basic items of clothing. Service clubs are called upon to supply childrens' shoes, glasses and birthday and Christmas gifts.

The reputation of the organization is growing and often outside organizations make contributions. During the holidays the L.G. Kiwanis club made a sizeable contribution for a specific family. For the purpose of assisting a volunteer group that is doing its utmost to handle its own problems, this newspaper is lending aid. We are printing, free of charge, Situation Wanted classified advertisements for those on the S.V. Welfare rolls.

Things aren't looking at all dreary in Spring Valley either, possibly because of the help-for-the-homefolk program. Mrs. Warren Lewis, chairman of the Community Welfare group announced this week that there are only four families presently being supported by her group.

At the beginning of the year there were 65 families on the rolls.

Their success suggests that local services might better be provided by leaving Washington and Sacramento out of it.

* * *

Narcotics traffic travels heavily through San Diego and it appears to many of us that the peddler, the pusher, and the courier are able to ply their heinous trade almost with impunity.

Dealers in narcotics are able to keep sales moving at a profitably, brisk pace because the laws which give us our bread-and-butter freedoms also provides certain freedoms by which the narcotics criminals operate.

The The Fourth Amendment to the Constitution asserts the right of all of those living in America (even Communists) to be secure in their person, papers and effects against unreasonable search and seizure.

Not only does the Constitution set forth these rights, but it also establishes a magistrate between the citizen and his government to forbid the state from entering homes for search except with a valid arrest or search warrant.

Thus, casual search is ruled out and purveyors of dope prospers.

Every sincerely honest American resents dopesters and communists using one of our most valuable tenets of freedom as a "freedom" to do our country and our people irreparable harm.

There are two ways to combat the problem. One is to rescind the Fourth Amendment and make search legal at any time and under any condition. Under this arrangement we could handle dope and the Red menace at one fell swoop because without the search and seizure features of our Constitution, we would, in fact, have communism. That would be the expensive way of ridding our country of the dopester.

Another way is the better, we think. This would be to stiffen the penalties relating to dope. Make death the penalty of the pusher. . .the person who persuades our citizens to take on the habit.

As a step in this direction, the governor is presently calling for tighter narcotics laws. He proposed a new offense, one that is not now listed as such: possession of narcotics for the purpose of sale. This would carry a much heavier penalty than the present slap-on-the-wrist penalty now in effect.

Other features of the governor's program includes:

1. No identifying informants except to magistrates
2. day and night use of search warrants
3. revocation of drivers' license for dope users
4. state facility for commitment, control and treatment of addicts.

Meat Supplier Files Suit Against Cafe

SAN DIEGO (CNS)—A suit for an unpaid meat bill was filed in Superior Court Tuesday against the recently closed Michael's restaurant, in Lemon Grove.

Plaintiff is the San Diego Meat Co., which charges that it is owed almost $3,000. The suit claims that Joseph Papitto, for the restaurant, signed a promissory note for $2,938 on Jan. 13, on which only $178 was paid, and that meat valued at $113 was later purchased.

In addition to the balance allegedly due on the note and the current meat bill, the suit asks about $175 for legal fees, which it says were agreed upon should payment be made for collecting the note.

Sheriff Wants Owners To Claim Bikes

Nearly 100 bicycles, most of them coming from the Lemon Grove, Spring Valley, El Cajon area, have been lodged in the property room of the county sheriff's office, 222 W. C St., San Diego, awaiting only owners to identify them according to Detective Sheriff's Deputy Don Bryan of Lemon Grove.

More than 20 bikes have been recovered from here during the past two weeks, he said.

Owners, who have lost bikes this year may apply at the sheriff's property office to identify their property. He urged owners to do this at an early date because of an auction soon to be held. At that all bikes, and other items, will go to the highest bidder.

LANDMARK — Here's Lemon Grove's big lemon—once a prize winner as a float in a San Diego agricultural fair parade 30 years ago — now a landmark in the Lemon Grove park.

'BEST CLIMATE ON EARTH'

LG Plaza's Lemon, Now Landmark, Once San Diego Parade Winner

By LEE CHILSON

An idea for a float in a San Diego parade more than a quarter of a century ago has developed through the years into one of this area's most famous landmarks—the big lemon on the plaza in Lemon Grove.

It was the summer of 1930 and plans were being formulated in San Diego for the annual Agricultural Fair in Balboa Park. Lemon Grove residents—then numbering abou 1500—needed an idea for a float theme.

The big lemon, mounted on a truck, was a natural. It won first prize in the parade.

GROVES FLOURISHED

In the early thirties here lemon and orange groves flourished. Citrus fruit, mostly from small ranches, was shipped through the old Lemon Grove Fruit Growers Assn. plant at Imperial avenue and Costa Bella street. In 1936 it closed down and in January of this year the 70-year-old lankmark was destroyed by fire.

Tony Tonka, who operated Tonka Bros. General Mercantile at the site of the present Lemon Grove Shopping Center, was a member of the Lemon Grove Chamber of Commerce board of directors that parade year.

BEST CLIMATE

"We needed some sort of a phrase to go with the float," he recalls, "and I came up with 'Best Climate on Earth' because people coming into our store—servicemen mostly, who'd been everyplace—always used to tell me that."

Tonka said the lemon was built at the Lemon Grove Lumber Co. at 7750 North Ave., "and after the parade we took it back to the lumber yard and had it mounted so we could set it up in the park."

The parents of Dr. Amorita Treganza, a Lemon Grove and San Diego optometrist, were active in the chamber during the thirties, and also took part in the creation of the big lemon. Dr. Treganza's father designed the float and her mother served as the first woman chamber president at about the same time.

And Dr. Treganza remembers the parade well—she was a part of it. As "Miss Lemon Grove" (she was 16 then) she rode on the prize-winning Lemon Grove entry.

The big lemon was built of wood and stucco and since its creation has had several new coats of plaster and many coats of bright yellow paint.

Currently the chamber of commerce and the Lemon Grove Business Women's League, Inc. maintain the community landmark along with the park area from North to Central avenues as one of their community projects.

BOY SCOUTS

It's family "Open House" day March 25, from 10 a.m. to 4 p.m. at Mataguay Scout Reservation, Camp Haul-Cu-Cuish and King Creek Ranch, according to word from Boy Scout headquarters, San Diego. All scouters, including those in cub scouting and exploring, and their families, are invited to get acquainted with one of the camps. No reservation is necessary. Special invitations are being sent to Scoutmasters and their families. The district commissioners and their staffs will be hosts.

Tours are being planned to show off each camp. Program opportunities and physical facilities will be highlighted. Picnic areas will be set up for the day at each camp. To get the greatest benefit from this opportunity, it has been recommended that a family select one camp and concentrate its time there. The trip should be planned to allow plenty of time.

For example: it is recommended that at least five hours be planned for the visit. This allows three hours driving time for the round trip from San Diego to any of the camps, and at least two hours for the tour and picnic at the camp.

NEW SWIM POOL

The construction of a second swimming pool at Mataguay Scout Reservation is under way, it has been announced by Boy Scout headquarters. The pool will be located at Camp B and will have all possible built in safety features, according to Dr. Hal Pote, development committee chairman. The pool is being constructed because of the overload on the present pool.

CUB SCOUTS 329

The annual Blue and Gold dinner of Cub Pack 329 of Spring Valley was held recently at Bancroft Elementary School, with all the dens being well represented. The well decorated tables did a lot to brighten the evening. Den 2, under the direction of Mrs. Pat Phillips and Mrs. Tom White, had silhuettes made of each Cub which they used as place cards.

In addition to the fine food and fellowship, a skit was presented by Den 8, under the direction of Mrs. George Lawless.

Cubmaster George Lawless presented several awards to Cubs. Howard Skinner, institutional representative, was given the new charter for the Pack. The highlight of the evening was the judging of the "Genius Kits." Den 2 walked off with top honors with entries made by Steve Phillips, Tom White, John Nysted, Marc Allen and Bobby Ek.

CUB SCOUTS 47

Outings are part of the Cub Scouting program, and Den 9, of Pack 47, under the leadership of Mrs. Ora Lee Day, have gone on quite a few during the past month. The parents of the Cubs took turns being in charge of one particular outing, such as:

Mrs. Helen Vryheid took the boys on two trips to the miniature golf course; Mrs. Mary Ann Klein took them on a tour of the Spring Valley fire station; Mrs. Geri Trent was in charge of an outing that included a visit to San Diego harbor, where the Cubs visited the destroyer Charles Berry and a tugboat. A visit to the International House followed.

Everett Day took the boys to the El Cortez Hotel glass elevator. They picnicked in Balboa Park and visited the museum. Mrs. Priscill Kimmel's outing took the boys on a trip through the Santa Fe railroad station and an inspection of two trains.

The boys who have been making these interesting tours are: Mike Day, Westley Trent, Robert Vryheid, Kenneth Lindeneau, Chuck Kimmel, Glen Klein, Tim Tresser, Vincent Gallins, Robert Walker and Tim Gross.

Mrs. Contreras Passes at 66

Mrs. Robbecca A. Contreras, 66, a retired citrus plant employe who lived at 3655 Olive St., Lemon Grove, died March 2 in a hospital. She had lived in the county 42 years.

She is survived by two daughters, Mrs. Clorenda Del Pago and Mrs. Sothia Sandoval, both of Lemon Grove; a son, Guadalupe J. Contreras of Lemon Grove, two sisters and nine grandchildren.

The Rosary was recited for her Monday and Mass was said Tuesday at St. John of the Cross church in Lemon Grove. Interment followed in Holy Cross cemetery.

My "Where There's A Will There's A Weigh" cooking program, to be presented twice in March, should be of interest to any homemaker who has some member or members of the family concerned with weight control. This program is scheduled for **Tuesday, March 14,** from 10 to 11:30 a.m., and **Tuesday, March 28,** from 1:30 to 3 p.m., in the auditorium of San Diego Gas & Electric Company's Eastern District Office, 104 North Johnson Street in El Cajon.

The secret of calorie-wise cooking is keeping calories from creeping into the meal. This can be accomplished through proper food preparation. My demonstration will show you how to avoid those ingredients which change a low-calorie dish to one high in weight-increasing properties. It will include menus for an entire day—breakfast, lunch and dinner. It will run the gamut from soups and salads to main courses and desserts. It will provide you with common-sense ideas for serving weight-control foods without sacrificing nutrition, tastiness and balance in your meals.

I'll be looking forward to seeing you at either of the two scheduled meetings. You'll receive recipes that you can put to use immediately. And there'll be the usual appliance door prize for the lucky winner, who may be you. Why not mark your calendar as a reminder to attend either one of these meetings.

44 Churches Readying Revival

Forty-four Baptist churches in San Diego County are getting ready to launch a simultaneous revival campaign, March 12-26. These plans were announced by Charles O. Talley Jr., executive director for the American Baptist Churches in San Diego and Richard G. Bryant, superintendent of City Missions for Southern Baptists.

The revival campaign will mark the beginning of these bodies working together toward the Jubilee celebration of these bodies. The celebration will be held in June 1964 in Atlantic City, New Jersey, when both National bodies will meet at the same time in the same city.

These revival campaigns will be directed by local pastors. Pastor I. L. Clark of the First Baptist Church of National City will direct the American Baptist Churches and Pastor Floyd E. Pittman of the Highland Avenue Baptist Church of National City will direct the Southern Baptist Churches.

Daily breakfast meetings will be held by these churches for fellowship-clinic purposes. The pastors, evangelist, music directors, and other revival personnel from both bodies plan to have their breakfast meetings together once each week.

Plans to gather 1,400 to a giant pre-revival rally to be held at the First Baptist Church, 10th and E, have been made for Saturday night, March 11, at 7:30 p.m. Dr. W. Hershell Ford, pastor of the First Baptist Church of El Paso, Texas, will be the principle speaker for the evening.

'Beauty' is Topic At Science Church

"My soul shall be joyful in the Lord: it shall rejoice in his salvation." This affirmation of the Psalmist (35:9) is the Golden Text of the Lesson-Sermon on "Soul" in all Christian Science churches Sunday. Beauty as the expression of true Being is the theme presented.

This divine source of beauty is emphasized in a Scriptural citation from The Acts (6:8, 9, 10, 15), "And Stephen, full of faith and power, did great wonders and miracles among the people. Then there arose certain of the synagogue, . . . disputing with Stephen. And they were not able to resist the wisdom and the spirit by which he spake. . . And all that sat in the council, looking stedfastly on him, saw his face as it had been the face of an angel."

GOD'S MINUTE

REV. H. C. BAKKEN

"THE CROSS"

The cross will work death in your life. If you know Jesus as your Savior, then this has already become evident in your experience. We are to take up our cross. This means to let the power of Christ work in us in a battle against sin. We will turn our backs upon sin and by the Grace of God die to its influence. The Christian will have to die every day to sin.

One call from you and he's on the job

IT'S LATE at night and the one thing you need most in this world is a prescription filled for someone you love. You make a phone call and a friend answers—your druggist. Within minutes after your call, he's on the job.

It takes a time like this to make you realize how much you depend on this man, yet how much you take him for granted. Your pharmacist means medicine when you need it—skillfully prepared. He means service—regardless of time. His concern is for you, not only as a customer, but as a friend.

And what a valuable "extra" for you if your neighborhood drug store gives you S&H Green Stamps. You know, of course, today half the families in America save them.

Your S&H Green Stamps make it possible for you to choose from over 1,500 top-quality, famous brand-name items at your S&H Green Stamp Redemption Store.

News of Spring Valley Estates, Mt. Miguel Terrace and La Presa

by Elaine Horowitz HO 3-5393

The fund-raising banquet for Spring Valley's Local Government Committee, was a real eye opener.

Most impressive were the facts and figures presented by Carl Matthews on tax rates in our present position, and what they would be if we annexed to San Diego or incorporated as a city. Carl and his committee must have worked for weeks to compile these figures. They were presented in such a way that even I could understand them.

The next thing that impressed me and you'll notice this is from a woman's viewpoint, was Mt. Miguel's girl choir. They sang a medley of tunes and their voices were sweet and clear. They wore just a touch of lipstick as their only make up, which made me happy to see that there are some teenagers who realize that youth is its own adornment.

The lost art of thinking was revived that night, as suggestions, ideas, pros and cons were exchanged. It is apparent that at this type of meeting you will find the interesting, intelligent people of our community. A gentleman named Fred Hansen stood out with his ideas and financial support, so I decided to try my first real interview, which you will read further on.

Dr. H. Trent, Carl Matthews and all the others working so hard to get the facts and figures before you not only give their time and energy, but their money as well. If you can't help actively, why don't you do so financially, remembering it will probably save you money in the long run. Send contributions to: Norman Mowery, Local Government Committee, 2241 Helix St.

LITTLE LEAGUE

All boys whose try-outs were rained out last Saturday, are to report to Avondale school grounds this coming Saturday at 9 a.m.

Further contributions for the Little League are fertilizer and grass seed from Walter H. Redding, and sign space from Betsey's Frosties.

Sponsors are still needed, so let's get on the ball. If you know of any leads or would like to sponsor a team or a boy yourself call Mr. Jordan at HO 3-0616.

MEET YOUR NEIGHBOR

If you like men of action and vision, you'll want to meet Fred J. Hansen, (not to be confused with the owner of the hog farms along Sweetwater Rd., John Hanson, a fine man, but no relation to Fred.)

Moving to San Diego in 1920, Fred could picture Spring Valley as it is today, but knowing it would take time, energy and money on his part as well as friends, to make this dream a reality couldn't stay, so he worked as one of the original developers of Mt. Helix and Calavo Gardens, served on the San Diego and Spring Valley Chamber of Commerce, was president of the La Mesa Chamber of Commerce, served for 26 years on the San Diego County Planning Commission, donated time and financial assistance to wards sewerage development in this area, was instrumental in bringing water to our area. (without which by the way, the house you live in wouldn't exist), participated in community projects in East County, and permitted the Casa de Oro Little League the use of his land. That's his past.

His present is just as community minded. Since the inception of the La Presa County Water District, Hansen has served as president of the Board of Directors, in fact, he thought the development of Spring Valley important enough to give up his home near La Mesa and move to his Sweetwater Springs Ranch to be eligible to work on this project. He's active in the Local Government group, is chairman for the Red Cross drive in Spring Valley, is a long time member of the La Mesa Rotary.

If you've met Fred Hansen, you'd never believe his age, especially because his plans are always for the future. At an age and in a position where many lesser men would have long been retired, Hansen is running for reelection to his present position on the La Presa County Water District this month. Why? Mainly because he wants to see his dream completed and that will be when our area is a thriving, prosperous community, with the sewerage problem solved and water available to all consumers at the lowest possible cost.

LA PRESA WOMEN'S CLUB

The Teen dance, sponsored by the La Presa Women's Club, will be held on March 10, from 7:30 p.m. - 10 p.m. Girls and boys in 7th and 10th grades are invited to this dance which will be held in the Rancho Elementary School auditorium. Admission is free.

AVONDALE PTA

The executive board of the Avondale PTA will hold their regular meeting on March 14, at 7:30 p.m., in the conference room at Avondale.

MASS MEETING

Rancho Elementary school's auditorium will be the scene of a mass meeting on March 15, starting at 7:30 p.m. The Community Library Committee will call for a definite vote on the location for the full time library proposed for this area. Come and vote or forever hold your peace.

At the same meeting representatives from the La Presa County Water District will be present to answer any questions you have had regarding water in your area. Again, speak now or. . . .

Local Student Gets Part in School Play

Bob Ellis, 6641 MacArthur, Lemon Grove, has been selected to play the role of the third guard in Pacific Lutheran University's presentation of "Antigone" by Jean Anouilh. DESPITE PROTESTS

Gas Rate Hearing Is Closed by PUC

SAN DIEGO (CNS)—Over the protests of attorneys for cities and charges they were being denied their constitutional rights, Commissioner C. Lyn Fox of the State Public Utilities Commission closed the hearing Friday on the San Diego Gas and Electric Co.'s request for an immediate $4,500,00 interim gas rate increase.

He set April 12 as the date for the hearing to begin on the company's plea for an additional rate hike which would bring the total cost to gas users up a total of $7,354,000 a year.

Fox conceded that his action in taking under submission the first phase of the request, intended to offset increased costs of gas purchased by the company for distribution to its customers, might be set aside by the full commission when the five-member regulatory body has had time to study the record of the proceedings.

VIGOROUS OPPOSITION

So vigorous was the opposition to closing the hearing on the offset phase before the entire rate case has been heard that one city attorney refused to take part in the final arguments Friday afternoon.

He was Robert O. Curran of National City, who told the commissioner he felt his city's constitutional rights were being violated because he said, he and attorneys from other cities outside of San Diego had been unable to present a rebuttal witness and complete cross-examination of company witnesses.

A formal motion for consolidation of the two phases of the rate case was made by Edwin L. Miller Jr., San Diego deputy city attorney, who declared the interim increase could not be granted at this time because it had not been shown that the company is facing an emergency as a result of the gas cost increases since 1958.

Miller, supported by other attorneys opposing the gas rate change, asked that the closing arguments be heard by the entire five-member commission.

TO RULE LATER

Commissioner Fox said the commission would rule on these requests after studying the transcript of the hearings.

Sherman Chickering, arguing for the company, said San Diego Gas and Electric had absorbed increased gas costs since 1958 but the most recent increase last August had caused a critical situation which called for prompt relief.

"Obviously 1960 earnings were not bad," Chickering said. "But on the basis of the last increase in cost, 1961 expenses of the gas department will be greater than anticipated revenues."

William Roche, senior counsel for the PUC, told the commissioner he felt the interim, offset rate increase request should be denied, "in its entirety."

"The applicant has not proved that the present rates are unreasonable," Roche said.

COSTS 'ABSORBED'

Roche said he believed the reason the company had "absorbed" gas costs out of earnings of the utility's electric department instead of applying for an offset increase earlier was because earnings in the electric department "were so high they couldn't stand the light of day."

Witnesses opposed to the company's request have contended that if an offset increase were applied to gas used by the company itself in its own electric generating plants, less of a rate increase would be required of domestic gas users.

This was sharply disputed by William L. Knecht, representing the California Farm Bureau Federation.

MORE CUSTOMERS

Knecht pointed out that there are 62,000 more electric customers than there are gas customers, and charging gas costs against the electric department would result in higher power rates to those electric customers who generally live outside of the incorporated areas and "who already may be paying too much for electricity.

Commissioner Fox ruled late Wednesday that, in order to speed up the proceedings, the two phases of the rate request would be separated. He ordered all further testimony and cross examination during the three-day session be restricted to the offset phase.

Gene Sotelo in S.P. Exercises

FORT LEWIS, WASH. (Spcl)—Army Speciatlist Four Eugene Sotelo, son of Mr. and Mrs. Baraquiel Sotelo, 1620 Skyline Dr., Lemon Grove, recently participated with other personnel from the 4th Infantry Division in Exercise Long Pass, a mobility training exercise, at the Clark Air Base-Stotsenberg training area in the Philippines. The exercise, which involved almost 6,000 U.S. Army and Air Force personnel from the continental U.S., Hawaii, Okinawa and the Philippines, ended Feb. 22.

Long Pass was designed to test the flexibility and airlift capability of U.S. fighting forces on a global scope.

Sotelo's unit returned to its home station at the conclusion of the exercise.

Specialist Sotelo, a team leader in the division's 22d Infantry at Fort Lewis, Wash., entered the Army in January 1958.

The 26-year-old soldier is a 1952 graduate of Grossmont high school.

Cancer's Danger Signals Ignored by 80 Per Cent

The American Cancer Society calls the evidence "shocking."

A new survey, says the San Diego Dept. of Public Health, has found that more than 80 per cent of the people ignore their danger signals of possible cancer. They fail to see their doctors about the lumps, unhealing sores, unexpected blood flecks, persistant indigestion and bowel irregularities that are considered danger signs.

This finding came from interviews with 43,235 volunteers. Over a six-year period the study will include 1,100,000 adults. They are being questioned on many details including their physical complaints and the medical attention they have sought. When they die, their death records will be analyzed. The study will try to find how various factors relate to the later detection of cancer.

In the initial interviews 62.2 per cent of the men and 54.9 per cent of the women reported one or more complaints regarded as cancer danger signs. The most common complaints among men were coughing, indigestion and too frequent urination. The women most often reported indigestion, coughing and hoarseness.

It is important that we know these complaints as possible warning, the department stated. Others are usual bleeding or discharge; a lump or thickening in the breast or elsewhere; a sore that does not heal; a change in bowel and bladder habits; or a change in a wart or mole.

Recognizing these danger signs, however, is not enough. The next step is the most important: see your physician, says the Dept. of Public Health.

CD, Disaster Groups Tell Changes in Staff

Gene Souligny, who has served the County Civil Defense as a volunteer Radef officer and instructor for many years, has accepted an appointment to the radiological staff of the California Disaster Office, it was learned last week. Souligny becomes an active member of the staff in Region 6 and will be working out of Escondido.

Souligny, accompanied W. L. Chandler, training officer in Civil Defense at Gillespie Field, attended the Operation Plumb Bob atomic tests in Nevada in 1957 and last year received advance radiological tarining at the Western Instructor Training School at Alameda. He has been an outstanding leader in the San Diego County Radef staff by frequent participation in operation alerts.

Galal J. Kernahan of Orange County, has been appointed coordinator for Region VI, succeeding I. L. Peterman, who recently resigned.

Herbert R. Rainwater of San Diego and National City was appointed assistant coordinator at the same time.

Rainwater was state commander of the VFW during 1959-60 and served last year as a member of the California Veterans Board under an appointment by Gov. Edmund Brown. He resigned that position to join the Civil Defense organization.

'Day in the Navy' Due Young Journalists

The fourth annual "Day in the Navy," combining a sea cruise with a story-writing competition for high school journalists, will be Monday, March 27, Capt. C. H. Fogwill, USNR, commanding officer of U.S. Naval Reserve Public Relations Company 11-1 of San Diego, announced today.

The unique educational venture, sponsored by the local Reserve unit, enables approximately 78 high school writers and editors from San Diego and Imperial Counties to participate in a visit to the U.S. Naval Training Center and a one-day cruise aboard the attack carrier, USS Ticonderoga, to observe air operations at sea.

Invitations to participate already have been mailed out to 10 schools in the area, and representatives from each school are being selected.

Journalism advisors, educators, school officials and civic leaders will also take part in the cruise. This year, the Naval Reserve Public Relations Company in Phoenix will send 25 Arizona student journalists and teachers to San Diego to participate in the "Day in the Navy" program.

The youthful journalists will have an opportunity to compete for 14 prizes based on excellence of reporting of the cruise. Two classifications include published and unpublished stories.

Top awards in each class are portable typewriters, donated by the San Diego Union and the San Diego Evening Tribune. Stories are submitted for publication in either the school newspaper or the local daily, or weekly press.

The Commandant's perpetual trophy, a gold plaque with crossed Navy sword and scabbard, is awarded to the high school whose two students achieve the highest point score total, in story writing.

In 1060 Vista High School won the award for the second time. Oceanside High took honors in 1958, surrendering the trophy to Vista in 1959.

HARTMAN NAMED

Sam Hartman has been elected president of the San Diego County Traffic Safety Council for 1961. He succeeds Harold Utschig. Hartman, president of the Coast Insurance Agency, Inc. of San Diego, headed the Council in 1959.

Hegland Measure Would Benefit Local Schools

Tax-exempt public utilities in California would provide nearly $27,000,000 to local school districts under a bill authored by Assemblyman Sheridan Hegland (D-La Mesa.) The public utilities are now free from local property taxes.

The Hegland bill will have its first hearing before the Assembly Committee on Public Utilities and Corporations sometime next week.

Similar measures authored by Hegland have been before the legislature in previous years. The bill calls for every public agency owning tax-exempt property which it uses in connection with its operation to make a payment equal to the aggregate annual taxes that would be payable by it, to any school district in which its property is located if such property were taxable.

"The millions of dollars with which the taxpayers subsidize these local public utilities can very well be spent on our badly needed school district," Hegland declared.

"Californians are now paying much too high state and local taxes," he added. "Enactment of this bill would not only help relieve this situation, but would stop the 'free ride' now being given these utilities through subsidization.

"We are jeopardizing our local governments and our local resources are being depleted by this method of tax-exemption." he said.

Advisory Group Hears Report On Monte Vista

Members of the Grossmont Union High School District Citizens Advisory Committee heard Gurdon Smith, school planning consultant, describe Monte Vista High School facilities in their meeting in the Board room on the Grossmont campus.

Smith showed pictures of the plant under construction on Sweetwater Springs boulevard and told CAC members that built-in TV conduit and thermal control are features of interest in the new plant. Integrated lighting, which gives a more general light for less maintenance cost, is also used in the buildings on the new campus, designed on a low-cost basis by the late architect, Herluf Brydegaard.

Smith also explained to members that the Grossmont district policy of acquiring land in advance for school sites has resulted in great saving to the district.

Harold G. Hughes spoke to the group about pending California legislation which, if passed, would have an effect on district schools. He pointed to AB 1000, a bill which proposes equalization of school cost on a county-wide basis.

Roger Winchester reported on the formation of new subcommittees of the San Diego County on School District Organization to study school district organization in each locale, and William DeGroot told of the tours taken by the junior college site selection committees.

FOR INSTRUCTION

Masks, Detector Kits Acquired by CD Unit

A set of protective masks and detector kits, designed to be used to protect personnel against chemical and biological warfare, has been received by the County Civil Defense office [illegible] of Civil and Defense Mobilization, it was learned last week. It is to be assigned to the training department for instructional purposes.

One mask is similar to one used in World War I, but contains an up-to-date canister. Another has been specially adapted for civil defense personnel. Each mask includes filter to remove solid and liquid particles from incoming air and each provides complete protection from inhalation of chemical, biological and radiological agents.

This is the first step in an accelerated program to make protective equipment available to the general public on the counters of our general stores. OCDM estimates such masks will be available for approximately $2.50 each.

FALLOUT SHELTERS

Seven commercial firms physically located in or doing business in California are listed as having submitted to OCDM shelter designs, which have been reviewed and accepted, says the offices of Civil Defense for San Diego County.

Fair Oaks Ave., Pasadena; Survive-All Shelter, 284 N. Palm Ave., Upland, Calif.; U.S. Survival Shelter Co., P.O. Box 2394, Oxnard; and Wonder Building Corp. of America, 30 N. La Salle St., Chicago, Ill.

NG Reserve Seeks Volunteers

More than six hundred volunteers, preferably with prior military service, are needed to swell the ranks of the 1st Brigade, California National Guard Reserve, the Southland's home and security defense force, it was revealed today.

The 11th Bn. of the 1st Brigade is headquartered at 7401 Artillery Dr., in San Diego. Information on the National Guard Reserve may be obtained by calling the office at BR 7-9160. Drills for the 11th Bn. are conducted every Wednesday.

The possibility that all or part of California may be left relatively unprotected in the event of war or major natural disaster is the reluctant rallying point for this band of patriots now serving as a cadre to back up the Army National Guard and Civil Defense and other governmental agencies.

NOT PART OF GUARD

Unrelated to the State's Army National Guard which is federally recognized and subject to federal control, the CNGR—which it is commonly called—is, however, commanded by the same State Adjutant General, Maj. Gen. Roderic L. Hill. The mission of the CNGR is to replace the regular guard as a state military force whenever the latter is called into federal service, or out of the state on military duty.

In the armories of 10 southern California counties, this handful of some 300 officers and men and women meet at regular drill assemblies to maintain their professional fitness and to always be ready to fulfill the mission of the states' reserve force which, simply stated is, "survival of the maximum number of Californians in event of great disaster or war."

They serve without pay, except for limited travel allowances for special training with facilities and limited equipment, as available.

CREATED IN 1949

The State Guard civilian soldier force was first created by an act of the far-seeing 1949 State Legislature and was activated by Gov. Earl Warren after the Korean crises in the summer of 1950 under an enabling act passed by Congress. Later, the 84th Congress passed Public Law 364 which allows the states to maintain separate military forces, in cadre form, in addition to the regular National Guard.

Responsible for second-line protection of southern California's southland empire is Brig. Gen. Azro J. Maxham, a veteran officer of many years service.

FORMER SERVICEMEN

More than 90 per cent of the present 1st Bridage roster is made up of officers and non-commissioned officers - men and women - many of them decorated with numerous combat awards. Former Army, Navy, Marine, Air Force and Coast Guardsmen now proudly wear the state-issue khaki.

What would seem to be the greatest hindrance to keeping an effective state force of volunteer reservists on the job, subject to strict military discipline, would be the lack of financial remuneration for drill and training time put in. Yet not a man, nor a woman, has complained when "paydays" cross the calendar year after year, without one cent of drill pay. The CNGR has aptly been called the "least expensive insurance policy on the books of the State of California."

County's Outstanding 4-H Clubbers Named

4-H members selected as the outstanding members of San Diego County for 1961 are Judy Garlow, 16, Escondido; Esther Pearson, 15, Lakeside; Ray Stock, 18, Poway; and Garth Lamp, 18, Dulzura, according to David W. Hinshaw, University of California farm advisor. These all-stars will attend the All-Star Conference March 26 to March 30 at the University of California at Berkeley. These members have been outstanding in their project work and participation in activities and events. Each has developed leadership ability through participation in the junior leadership project, club offices and activities at school, church and in the community, Hinshaw further states.

HOME ECONOMICS

Judy Garlow's projects are primarily in the home economics field and junior leadership. This 4-H all-star plans on attending college next year. Judy has completed seven years as a 4-H member. She has stated, "I have had so many opportunities in 4-H, and I only hope that I can pass some of these opportunities on to other young people."

Esther Pearson's projects have been in the fields of agriculture and home economics during six years of 4-H Club work. Esther has particularly been outstanding in her demonstration work. She has presented demonstrations relating to her projects throughout the county to adults and fellow 4-H'ers alike. She states, "Through the junior leader project I have learned to get along with others."

JUNIOR LEADER

Ray Stock's projects have been in agriculture and junior leadership during seven years of 4-H work. Ray states, "I have found that in my years of 4-H work I have broadened my scope of learning in agriculture. I started with a simple garden project, but as the years progressed I found that I could use the benefits from one project to start or support another project. I received a tremendous amount of help from my leaders and junior leaders, and have always hoped that some day I would be able to repay some of that help."

Garth Camp's projects have been in agriculture, primarily field crops and tractor and junior leadership, during ten years as a 4-H member. He is currently attending college in San Diego. He states, "4-H has been wonderful to me through the years. I have learned many things and met many interesting pople and made many new friends. Most of all, 4-H has given me an interest strong enough to make me go on in agriculture in my college studies."

Goodwill Fold Get $30,000 in Wages

Handicapped workers at the Goodwill Industries last month received a total of $29,677 in "opportunity wages" Charles Spisak, executive director of the Goodwill Industries told members of the board of directors Monday at the main plant-store, 402 Fifth Ave., San Diego.

Dr. Frank Gigliotti, and Max Goodwin, both of Lemon Grove, attended the directors meeting, over which George A. Scott, presided.

Spisak, a Lemon Grove resident, said that there is "a pressing need for old furniture, ranges, divans, and other hard goods." These are processed and offered for sale at nominal prices in the various Goodwill stores including the one in Lemon Grove.

PUBLIC NOTICE-- ITS MANY USES

Copyright 1960
By James E. Pollard

Here is another series of articles on legal advertising. The first few will deal with background of legal notices. Later, specific legals will be discussed.

NOTICE TO DEPOSITORS
(No. 4 in a Series)

A Boston savings bank published a notice in a local daily newspaper that "application has been made to and accepted by the Federal Deposit Corporation for insurance of each deposit account in this bank up to $10,000." This action, the notice continued, was taken "in accordance with authority given to this Bank" under specified provisions of the general laws.

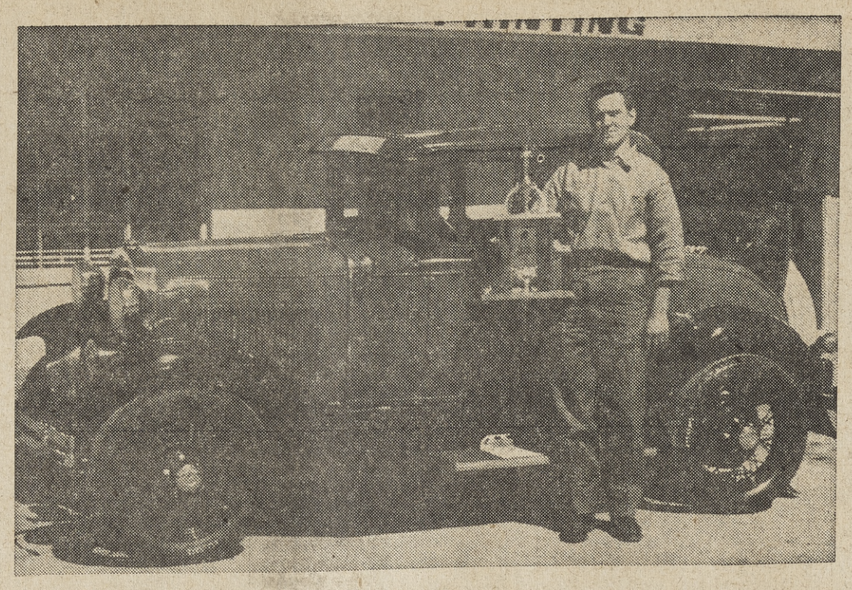
The notice, signed by the bank president, appeared twice in the newspaper, a week apart. It told the depositors also that "Further questions with relation to this subject may be directed to the bank."

Doubtless other ways might have been, and perhaps were, used to notify depositors of this action by the bank. But the use of a newspaper of general circulation was provided for specifically by law. This is common with many kinds of public notices.

Short of personal notice, which is also specified in some situations, the newspaper is the best means of giving public notice. It is tangible, it is semi-permanent, it is established, and invariably it has a substantial following of voluntary, paid, habitual readers.

For many years, then, the newspaper and the public notice have joined hands to serve the public. The public notice contributes to the protection of those whose rights may be involved. At the same time the newspaper gives maximum publicity to the notice. All of this is in the interest of both public and individual.

LG 'Classic' Car Takes National Prize



WINNER — Here is the trophy, the car that won it, and Clarence Scheidle, owner of both the car and the trophy. The car, a reconstructed 1931 Ford model A took third place national award last month at the National Hotrod Association's Winter National Car Show at the Los Angeles County Fair Grounds at Pomona. Scheidle's car won third place in the "classic" class. Scheidle, who operates the L.G. Paint and Body Co. at 7315 Broadway, said the car sold originally for about $675. He says it is worth more than $2,000 today. He bought it as a Christmas present for his wife, he said, and the family spent several hundred hours restoring it, even to the original size tires. The tires were no problem, Scheidle said. They were easily found by way of the catalog of a national mail order house.
